Coffee Market Report

The Customs authorities in Vietnam have reported that the countries coffee exports of mostly Robusta coffees for the month of June were marginally higher than had been forecast earlier in the month, to total 2,604,300 bags. These exports they say have contributed to the countries cumulative coffee exports for the first six months of this year to be 10.8% higher than the same period last year, at a total of 17,234,367 bags.

The Vietnam Customs authorities within the same report do however make note that while the volume of coffee exports for the first six months of this year were 10.8% higher than the same period last year, that the revenue from these exports was 5.1% lower than the same period last year. This data further illustrating the falling revenue for coffee producers globally, as they strive to profit from coffees that they are obliged to sell against the prevailing soft reference prices of the international coffee terminal markets.

The September 2018 to September 2018 contracts arbitrage between the London and New York markets narrowed yesterday, to register this at 36.21 usc/Lb., while this equates to 32.32% price discount for the London Robusta coffee market.

The Certified washed Arabica coffee stocks held against the New York exchange were seen to increase by 4,550 bags yesterday, to register these stocks at 2,049,857 bags. There was an increase by 3,446 bags to the number of bags pending grading for this exchange, to register these pending grading stocks at 34,498 bags.
