### Coffee Market Report

The Indonesian Agricultural Ministry have come forth with their latest coffee production forecasts for 2019, which they foresee to potentially reach 12,151,233 bags or 0.92% higher than their reported production estimate of the Indonesian coffee crop in 2018. This latest estimate might be viewed as fairly optimistic when compared against the general consensus of estimates for this crop that is traditionally approximately 85% Robusta production, to be somewhere around 10 million bags this coming season.

The July to July contract arbitrage between the London and New York markets broadened yesterday, to register this at 31.35 usc/Lb., while this equates to 32.05% price discount for the London Robusta coffee market.

The Certified washed Arabica coffee stocks held against the New York exchange registered a decrease by 653 bags yesterday, to set these stocks at 2,492,800 bags. There was no change to the number of bags pending grading for this exchange; to register these pending grading stocks at 5,861 bags.
