Coffee Market Report

The markets remained devoid of fundamental supportive news and with the frost risk for Brazil factor now on the wane, speculative focus is turning back to the ample global coffee stocks as against the slow northern hemisphere summer holiday demand. This impacting negatively upon sentiment and resulting in the prevailing soft nature of the coffee terminal markets.

The September to September contracts arbitrage between the London and New York markets narrowed yesterday, to register this at 38.40 usc/Lb., while this equates to 38.02% price discount for the London Robusta coffee market. The Certified washed Arabica coffee stocks held against the New York exchange were seen to increase by 3,129 bags yesterday; to register these stocks at 2,365,994 bags. There was meanwhile a larger in number 9,228 bags decrease to the number of bags pending grading for this exchange; to register these pending grading stocks at 23,148 bags.
