Coffee Market Reports

Reuters has reported that the Vietnamese Government has on Wednesday extended a two-week social distancing programme for 12 provinces in the country but lifted the stringent measures for most of the rural areas, including the coffee belt area of the central highlands. Although restrictions have been somewhat eased in the rural outlying areas, elsewhere such as Ho Chi Minh City where the main port is located, still have lockdown measures place however, these measures are related to societal restrictions and social distancing which will impact day to day business and citizens, it would appear meanwhile that logistical services and therefore, coffee deliveries to port and exports will continue to flow to consumer markets.

The July to July contracts arbitrage between the London and New York markets narrowed yesterday; to register this at 65,04 usc/Lb. This equates to 54,34% price discount for the London Robusta coffee market.

The Certified washed Arabica coffee stocks held against the New York exchange were seen to remain unchanged yesterday; to register these stocks at 1.866,211 bags, with 90,4% of these certified stocks being held in Europe at a total of 1.686,704 bags and the remaining 9,6% being held in the USA at a total of 179,507 bags. There was meanwhile no change to the number of bags pending grading for this exchange; to register these pending grading stocks at 61,580 bags.
